COMMENTS

Financial performance

The Group turnover for the third quarter of the financial year increased by 8.2% compared to the corresponding period last year, with the Easter holidays having impacted the quarter positively. Earnings from operating activities increased by 50% and Normalised EBITDA by 33%. This improved performance was achieved in spite of the closure of Canonnier Beachcomber for most of the quarter, the depreciation of the Group's main trading currencies and the costs associated with the transfer of management of the Royal Palm Marrakech to Fairmont. EBITDA was impacted positively by the sale of the Group's non-core minority investment in South West Tourism (Bis) Ltd for Rs 61M and the final settlement of some Rs 62M from insurance with respect to the fraud recorded last year. After accounting for Canonnier Beachcomber's closure costs of Rs 32M, EBITDA for the quarter increased from Rs 47M to Rs 200M. As mentioned previously, the Group has reviewed its depreciation policy in line with industry norms, resulting in a significant increase in depreciation charge. The Group posted a reduced loss of Rs 200M for the quarter compared to Rs 297M last year.

PAT for the nine months to June 2017 reached Rs 508M, an increase of 66% over last year. The occupancy rate for nine months for all hotels, adjusted for the closure of Canonnier Beachcomber, increased from 69% to 73%. Average revenue per guest remained at par with last year in spite of a 15% drop in the GBP and 3.5% drop in the Euro.

Projects

Renovation works at Canonnier Beachcomber are progressing satisfactorily. The hotel will reopen on the 2nd of September 2017 as planned. The new 40-room wing, pool and restaurant at Victoria Beachcomber will also open as planned in November 2017. through a pro-rata share issue to its minority shareholder and through bank loans to finance the redevelopment of the resort. Furthermore, BHI is in advanced discussions with a leading international hotel operator with which it expects to sign a long term lease agreement for an annual rental of some Euro 7M. Upon signature of the agreement between BHI and the lessee, Sainte Anne Resort will be reclassified as Investment Property. This important initiative would have a positive impact on the Group's results over the medium and long term, Sainte Anne Resort having registered losses over the past few years.

Outlook

Whilst the weakness of the GBP will continue to impact the Group's operations negatively, the recent appreciation of the Euro will have a positive effect on the turnover of the fourth quarter. The costs associated with the closure of Canonnier Beachcomber and Beachcomber Seychelles Sainte Anne should be partly compensated by the improved results of the hotels in Mauritius. After an initial handover period to Fairmont, the performance in Marrakech should improve as from October 2017. The Board expects the results for the full financial year to be positive, despite the losses typically incurred in the last quarter.
