**PARADIS BEACHCOMBER AND DINAROBIN BEACHCOMBER BOTTLE THEIR OWN WATER**

Paradis Beachcomber Golf Resort & Spa and Dinarobin Beachcomber Golf Resort & Spa now provide their guests with water that is filtered and bottled on their premises in continuation of their commitment to society and the environment.

Situated on Le Morne Peninsula in the south-west of Mauritius, Paradis Beachcomber has started bottling its own still and sparkling water since 1st December 2017. The initiative has also been rolled out since 3rd January 2018 at the sister resort, Dinarobin Beachcomber.

This invaluable resource is filtered and bottled in a plant set up in the backyard of Paradis Beachcomber by a specialist service provider, Poseidon Water. The water bottling plant employing three artisans operates six days a week, with a production capacity of some 2,500 litres per day.

The resorts' guests can enjoy safe, great tasting water through a premium quality filtration system. To ensure quality of the water, physico-chemical tests are carried out every week.

Reusable glass bottles cleaned in a specifically designed washing unit are also used. In addition to environmentally responsible production and distribution practices, the initiative increases cost-effectiveness by saving on storage and transport.

The water produced by Paradis Beachcomber and Dinarobin Beachcomber is already available in their restaurants and villas, and will also be placed in rooms in the near future. Furthermore, guests who opt for water bottled on the resorts' grounds will contribute to fulfilling Beachcomber Resorts & Hotels' commitment to the environment.

#### About Beachcomber

Beachcomber Resorts & Hotels is the pioneer and leader of the Mauritian tourism industry. Since the creation of Park Hotel in 1952, a collection of 9 resorts have emerged over the years, including the mythical Royal Palm Beachcomber Luxury Mauritius in 1985, considered by everyone as the reference in hospitality for luxury holidays in Mauritius.

The Group recently expanded its collection, with the integration of the Beachcomber French Riviera, situated on the Côte d'Azur, in France.

The collection of 9 resorts affords a choice of accommodation options ranging from rooms and apartments to suites and villas. Each hotel is imbued with a particular history and cachet, embodying an image of discrete luxury.

#### *Social responsibility – Fondation Espoir Développement (FED), by Beachcomber*

Set up and financed by Beachcomber since 1999, with the participation of hotels and employees, this foundation takes care of these main projects:

- Projet Employabilité Jeunes (PEJ): professional insertion of school drop-outs through a training programme and industrial attachments.
- Collaboration with NGOs, schools and associations
- Regional projects – youth mentoring: the “Amour et Espoir” NGO; IT initiation; youth monitoring via the “Duke of Edinburgh International Award” programme, participation of regional sports clubs in the organisation of the Beachcomber UTRB Trail 2015

#### *Social responsibility – Local Hands*

Programme launched in 2006 to support small local artisans by providing them with training and guidance as they embark upon the process of creation, production, marketing and sales.

#### *Sustainable development – our environmental actions – EarthCheck label*

Sustainable development and environmental protection constitute real considerations within the Group, which has set up, amongst other initiatives, practices that ensure energy savings and favour renewable energy sources. These initiatives in favour of sustainable development have been recognised and rewarded, with two of our hotels recently obtaining the EarthCheck Benchmarked Bronze accreditation for their ongoing commitment to environmentally responsible practices.
