
Beachcomber properties once again recognised by Booking.com

Eight Beachcomber Resorts & Hotels' properties in Mauritius have received Booking.com's Guest Review Award 2017 for their commitment to exceptional hospitality.

Royal Palm Beachcomber Luxury, Dinarobin Beachcomber Golf Resort & Spa and Victoria Beachcomber Resort & Spa have improved their score from last year at the Guest Review Awards. This accolade from the world's leading online accommodation provider celebrates properties that have offered excellent guest experiences.

According to Booking.com's Global Director Partner Services, Peter Verhoeven, "To maintain such a high review score is an extraordinary accomplishment, and one you should be very proud of. We're certainly very pleased to call you our Partner."

The Guest Review Award score is based on all reviews published on Booking.com's website during the 24 months preceding 1st November 2017. The overall scores are a combination of several review factors including cleanliness, comfort, location, facilities, staff and value for money.

Properties must have achieved an average review score of 8.0 or higher to be recognised with a Guest Review Award. Rankings were determined based on over 140 million reviews, which are all real experiences shared by real customers. For this sixth edition, 549,937 properties in 218 countries and territories have received an award.

Beachcomber Resorts & Hotels is proud of its hotels' and Artisans' achievement and look forward to exceeding the scores in 2018!

About Beachcomber

Beachcomber Resorts & Hotels is the pioneer and leader of the Mauritian tourism industry. Since the creation of Park Hotel in 1952, a collection of 9 resorts have emerged over the years, including the mythical Royal Palm Beachcomber Luxury Mauritius in 1985, considered by everyone as the reference in hospitality for luxury holidays in Mauritius.

The Group recently expanded its collection, with the integration of the Beachcomber French Riviera, situated on the Côte d'Azur, in France.

The collection of 9 resorts affords a choice of accommodation options ranging from rooms and apartments to suites and villas. Each hotel is imbued with a particular history and cachet, embodying an image of discrete luxury.

Sustainable development – our environmental actions – EarthCheck label

Sustainable development and environmental protection constitute real considerations within the Group, which has set up, amongst other initiatives, practices that ensure energy savings and favour renewable energy sources. These initiatives in favour of sustainable development have been recognised and rewarded, with two of our hotels recently obtaining the EarthCheck Benchmarked Bronze accreditation for their ongoing commitment to environmentally responsible practices.
