
EarthCheck Silver Certification: Royal Palm Beachcomber Luxury asserts its leadership in eco-friendly practices

Beachcomber Resorts & Hotels is highly committed to eco-friendly practices. The group has been actively committed for a number of years now, in sustainable development programs under the Earthcheck label. The group has indeed invested massively in systems and practices that promote energy efficiency and the reduction of CO² emissions.

Royal Palm Beachcomber Luxury recently reached a new milestone by acquiring the EarthCheck Silver certification.

Dedicated to providing a unique experience to its customers, this award is the result of exhaustive day-to-day work and the general involvement of its teams.

This certification attests that the hotel has put in place good practices and procedures to reduce the negative impact of high-energy consumption on the environment.

By acknowledging that the activities of a hotel could potentially have a negative impact on the environment and the community at large, Mathieu Rivet, Group Engineering Manager of Beachcomber Resort & Hotels strongly believes that this new certification will boost and strengthen the measures initiated so far. It is an opportunity for the group to affirm its position on sustainable development and environment protection.

The teams of Royal Palm will pursue their intensive quest of excellence, through rigorous training and the respect of audits to maintain their premium and reinforced high-end position that the EarthCheck Silver certification guarantees.

The Silver label is the result of months of hard work by the 'Green Team'. The ultimate goal is to acquire the same Silver certification for all the hotels of the group in Mauritius in 2019.

This official title is a great achievement for Royal Palm Beachcomber Luxury and symbolises the elegant but responsible art of living.

The EarthCheck Silver certification is a very important recognition of the eco-friendly practices of Beachcomber and reinforces the group's ideology to find sustainable solutions to the challenges that the planet is facing.

About Beachcomber

Beachcomber Resorts & Hotels is the pioneer and leader of the Mauritian tourism industry. Since the creation of Park Hotel in 1952, a collection of 9 resorts have emerged over the years, including the mythical Royal Palm Beachcomber Luxury Mauritius in 1985, considered by everyone as the reference in hospitality for luxury holidays in Mauritius.

The Group recently expanded its collection, with the integration of the Beachcomber French Riviera, situated on the Côte d'Azur, in France.

The collection of 9 resorts affords a choice of accommodation options ranging from rooms and apartments to suites and villas. Each hotel is imbued with a particular history and cachet, embodying an image of discrete luxury.

Social responsibility – Fondation Espoir Développement (FED), by Beachcomber

Set up and financed by Beachcomber since 1999, with the participation of hotels and employees, this foundation takes care of these main projects:

- Projet Employabilité Jeunes (PEJ): professional insertion of school drop-outs through a training programme and industrial attachments.
- Collaboration with NGOs, schools and associations
- Regional projects – youth mentoring: the “Amour et Espoir” NGO; IT initiation; youth monitoring via the “Duke of Edinburgh International Award” programme, participation of regional sports clubs in the organisation of the Beachcomber UTRB Trail 2015

Social responsibility – Local Hands

Programme launched in 2006 to support small local artisans by providing them with training and guidance as they embark upon the process of creation, production, marketing and sales.

Sustainable development – our environmental actions – EarthCheck label

Sustainable development and environmental protection constitute real considerations within the Group, which has set up, amongst other initiatives, practices that ensure energy savings and favour renewable energy sources. These initiatives in favour of sustainable development have been recognised and rewarded, with two of our hotels recently obtaining the EarthCheck Benchmarked Silver accreditation for their ongoing commitment to environmentally responsible practices.
