

ENVIRONMENTAL AND SOCIAL POLICY

As a Mauritian company and pioneer of the hospitality industry in Mauritius, we are aware of the gift nature has given us to live in one of the most beautiful islands of the Indian Ocean. Our responsibility is to pass it on to future generations whilst taking care of each member of our teams. Each person is, and will remain, a true artisan of Beachcomber's very personal idea of hospitality.

It is our strong commitment to drive sustainable practices that protect the environment and support the communities in which our hotels operate. As such, we fully comply with concerned legal requirements, including responsible land use planning and management, and truly care for the well-being of our Artisans. We, at Beachcomber Resorts & Hotels, engage both our Artisans and guests in our programmes, while continually striving for the EarthCheck certification.

Canonier Beachcomber Golf Resort & Spa is a 4-star property located on a historical peninsula offering a breathtaking view over the north islands off the northern coast of Mauritius. The Hotel has 283 rooms, 3 restaurants, 2 bars, a swimming pool, a Spa, a Putt- Putt and a wide variety of land and water sports activities. Canonier Beachcomber also has a lush tropical garden blending seamlessly into the ruins of an old fortress and lighthouse which was built in the 1750's when the island was still a French colony.

Our Sustainability Commitments can be proudly summarised as follows:

- We strive to reduce scope 1 and 2 greenhouse gas emissions emanating from our vehicles and electricity consumption;
- We embrace rainwater harvesting and control water consumption through implementation of aerators and our linen & towel change policy;
- We promote energy conservation through natural lighting and energy management;
- We carefully separate and recycle waste, fostering zero single-use plastic;
- We commit to the elimination of hazardous substances from our operations;
- We work hard to protect biodiversity and preserve our historical heritage;
- We manage our ecosystem through awareness on marine and land conservation;
- We champion responsible sourcing as embodied in our Sustainable Purchasing Policy including fair trade principles;
- We extend our hand in support to NGOs dedicated to sustainability projects;
- We contribute to nearby villages for cultural and social activities, recruit of underprivileged young Mauritians through our Youth Employability Project (PEJ), and
- We promote local employment, encouraging the enduring devotion of our Artisans to sustainability through comprehensive training, starting as from their onboarding.

At Beachcomber Resorts & Hotels, we are committed to creating memorable and sustainable experiences for our Guests while minimising our environmental impact and contributing positively to society. This policy guides our actions, and we invite our Artisans, guests, and partners to join us in making sustainability a valuable asset.
